For most grilled cheeses, it's all about what's inside the bread that counts. At [Bell Book & Candle](#) in N.Y.C., the exterior is just as intriguing. Each tangy sourdough sandwich is filled with thick slices of melty raclette cheese (a raw cow's milk cheese), and topped with a slow-poached egg, chopped chives and truffle shavings. When broken, the runny yolk will slowly spread over the sandwich, giving it a creamy, buttery finish.
